PERSONAL PROJECTS

My own website and logo (lannguyen.netlify.app)

- Used Adobe Illustrator to created my logo and Figma to designed my portfolio website.
- Implementation with React.

Bokacha website

- Designed a website for Bokacha coffee shop. The tasks included: brainstorm ideas, sketch out low-fidelity, developed high-fidelity wireframes, clickable prototypes on Figma.

Sammal online shop

- Redesigned product page UI of Sammal online shop with the main focus on offering transparency on the environmental impact of products.
- This project was a design course's assignment.

Project Name

Grocery list application

- Created design for a grocery mobile app as part of my UI design course, from ideation to final design. Tools: Adobe XD.
